PROFILE

Frontend Developer skilled in building responsive, optimized, and visually appealing websites using HTML, CSS, Bootstrap, and JavaScript. I have a strong understanding of UI structure, browser behavior, and modern styling practices. Looking for opportunities to apply my skills in real-world projects.

PERSONAL PROJECT/S

Project Name : Real Estate (Final Project)

Project Url : https://tinyurl.com/2a47u78y

Description : This Real Estate Property Listing Website is a fully responsive frontend project built using HTML, CSS, Bootstrap, and JavaScript. It showcases a collection of property cards with images, pricing, features, and location details. I designed the layout using Bootstrap's grid system to ensure a smooth user experience on all screen sizes. JavaScript is used for interactivity, navigation, and dynamic elements, making the website modern and user-friendly. This project demonstrates my understanding of responsive UI design, clean code structure, and frontend development best practices.

Project Name : Restaurant Website Loading Page

Project Url : https://tinyurl.com/2adfzmxl

Description : Built a modern, responsive loading screen for a restaurant website using HTML, CSS, and JavaScript. Implemented custom animations and transitions to provide a visually engaging user experience during page load.

Project Name : Nexcent Loading Page

Project Url : https://tinyurl.com/23t8pj78

Description : Developed a responsive Nexcent demo website using HTML, CSS, and JavaScript, focusing on clean UI, structured layout, and mobile-friendly design.

Project Name : Portfolio Website

Project Url : https://tinyurl.com/23q79bqh

Description : A fully responsive, mobile-first portfolio website showcasing my skills, projects, achievements, and contact information. Built using HTML, CSS, and JavaScript with smooth UI sections like Hero, About, Skills, Projects, and Contact. The design focuses on clean layout, fast performance, and an engaging user experience.

Project Name : IPDC Landing Page

Project Url : https://tinyurl.com/22zufcnv

Description : A fully responsive website built using HTML, CSS, and JavaScript for showcasing IPDC-related content. The design focuses on clean layout, smooth UI, optimized performance, and mobile-friendly navigation.
